

EDITORIAL POLICY

MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES is dedicated to publishing original scientific papers presenting new results in fundamental and applied research, review articles, as well as brief communications in different scientific fields as indicated by the title of the journal. Review articles are published only when solicited by the editorial board of the journal. Manuscripts that have already been published either fully or partially, or have been submitted for publication to some other journal will not be accepted. The journal is issued twice a year.

The manuscripts should be written in correct English language in terms of grammar and style. The manuscripts should be submitted electronically as a separate file to vnikolic@maticasrpska.org.rs and also enclosed with the written consent of the authors for publication of the manuscript.

Upon receipt of the manuscript, the authors will receive a manuscript ID, which has to be referred to in any further correspondence. The authors will be notified of the manuscript reception within seven days, and about the reviewers' opinion within two months after submission. All submitted manuscripts are reviewed and proofread.

MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES is an Open Access journal.

Manuscripts should be submitted to the Journal in English, with an abstract also in Serbian language.

MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES is available in full-text at the Matica Srpska web site www.maticasrpska.org.rs and in the following databases: Serbian Citation Index, EBSCO Academic Search Complete, abstract level at Agris (FAO), CAB Abstracts, CABI Full-Text, Thomson Reuters Master Journal List and DOAJ (Directory of Open Access Journals).

Editorial responsibilities

The Editor-in-Chief and members of the Editorial Board are responsible for deciding which articles submitted to MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES will be published. The Editor-in-Chief and the Editorial Board are guided by the Editorial Policy and constrained by legal requirements in force regarding libel, copyright infringement and plagiarism.

The Editor-in-Chief reserves the right to decide not to publish submitted manuscripts in case it is found that they do not meet relevant standards concerning the content and formal aspects. The Editorial Staff will inform the authors whether the manuscript is accepted for publication within two weeks after receiving from authors the manuscript revised according to reviewers' comments.

The Editor-in-Chief and members of the Editorial Board must hold no conflict of interest with regard to the articles they consider for publication. If an Editor feels that there is likely to be a perception of a conflict of interest in relation to their handling of a submission, the selection of reviewers and all decisions on the paper shall be made by the Editor-in-Chief.

The Editor-in-Chief and members of Editorial Board shall evaluate manuscripts for their intellectual content free from any racial, gender, sexual, religious, ethnic, or political bias.

The Editor-in-Chief and the Editorial Staff must not use the unpublished information disclosed in submitted manuscripts without the explicit written consent of the authors. The information and ideas presented in submitted manuscripts shall be kept confidential and must not be used for personal gain.

The Editor-in-Chief and members of the Editorial Board shall take all reasonable measures to ensure that the reviewers remain anonymous to the authors before, during and after the evaluation process.

Author's responsibilities

Authors warrant that their manuscript is their original work, that it has not been published before, and is not under consideration for publication elsewhere. Parallel submission of the same paper to another journal constitutes a misconduct, and eliminates the manuscript from consideration by MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES.

The Authors also warrant that the manuscript is not and will not be published elsewhere (after the publication in MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES) in any language without the consent of the Editorial Board.

In case that a submitted manuscript is a result of a research project, or its previous version has been presented at a conference in the form of an oral presentation (under the same or similar title), detailed information about the project, the conference, etc. shall be provided in Acknowledgements. A paper that has already been published in another journal cannot be reprinted in MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES.

It is the responsibility of each author to ensure that manuscripts submitted to MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES are written according to ethical standards. Authors affirm that the manuscript contains no unfounded or unlawful statements and does not violate the rights of third parties. The Publisher will not be held legally responsible should there be any claims for compensation.

Reporting standards

A submitted manuscript should contain sufficient details and references to permit reviewers and, subsequently, readers to verify the claims presented in it. The deliberate presentation of false claims is a violation of ethical standards. Book reviews and technical papers should be accurate and they should present an objective perspective.

Authors are exclusively responsible for the contents of their submissions and must make sure that they have permission from all involved parties to make the data public.

Authors wishing to include figures, tables or other materials that have already been published elsewhere are required to refer to the reference used, or to have permission from the copyright holder(s). Any material received without such evidence will be assumed to originate from the authors.

Authorship

Authors must make sure that only contributors who have significantly contributed to the submission are listed as authors and, conversely, that all contributors who have significantly contributed to the submission are listed as authors. If persons other than authors were involved in important aspects of the

research project and the preparation of the manuscript, their contribution should be acknowledged in a footnote or the Acknowledgments section.

Acknowledgment of sources

Authors are required to properly cite sources that have significantly influenced their research and their manuscript. Information received in a private conversation or correspondence with third parties, in reviewing project applications, manuscripts and similar materials must not be used without the explicit written consent of the information source.

Plagiarism

Plagiarism, where someone assumes another's ideas, words, or other creative expression as one's own, is a clear violation of scientific ethics. Plagiarism may also involve a violation of copyright law, punishable by legal action.

Plagiarism includes the following:

- Word for word, or almost word for word copying, or purposely paraphrasing portions of another author's work without clearly indicating the source or marking the copied fragment (for example, using quotation marks);
- Copying equations, figures or tables from someone else's paper without properly citing the source and/or without permission from the original author or the copyright holder.

Please note that all submissions are thoroughly checked for plagiarism.

Any paper which shows obvious signs of plagiarism will be automatically rejected and those authors will not be permitted to submit papers to MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES for three years.

In case plagiarism is discovered in a paper that has already been published in the journal, it will be retracted in accordance with the procedure described below under Retraction policy, and authors will not be permitted to submit papers to MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES for three years.

Conflict of interest

Authors should disclose in their manuscript any financial or other substantive conflict of interest that might have influenced the presented results or their interpretation.

Fundamental errors in published works

When an author discovers a significant error or inaccuracy in his/her own published work, it is the author's obligation to promptly notify the journal Editor or publisher and cooperate with the Editor to retract or correct the paper.

By submitting a manuscript the authors agree to abide by the MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES's Editorial policies.

Reviewer responsibilities

Reviewers are required to provide written, competent and unbiased feedback in a timely manner on the scholarly merits and the scientific value of the manuscript.

The reviewers assess manuscript for the compliance with the profile of the journal, the relevance of the investigated topic and applied methods, the originality and scientific relevance of information presented in the manuscript, the presentation style and scholarly apparatus.

Reviewers should alert the Editor to any well-founded suspicions or the knowledge of possible violations of ethical standards by the authors. Reviewers should recognize relevant published works that have not been cited by the authors and alert the Editor when they become aware of substantial similarities between a reviewed manuscript and any manuscript published or under consideration for publication elsewhere. Reviewers should also alert the Editor when they become aware of a parallel submission of the same paper to another journal.

Reviewers must not have conflict of interest with respect to the research, the authors and/or the funding sources for the research. If such conflicts exist, the reviewers must report them to the Editor without delay.

Any selected referee who feels unqualified to review the research reported in a manuscript or knows that its prompt review will be impossible should notify the Editor without delay.

Reviews must be conducted objectively. Personal criticism of the author is inappropriate. Reviewers should express their views clearly with supporting arguments.

Any manuscripts received for review must be treated as confidential documents. Reviewers must not use unpublished materials disclosed in submitted manuscripts without the explicit written consent of the authors. The information and ideas presented in submitted manuscripts shall be kept confidential and must not be used for personal gain.

Peer review

The submitted manuscripts are subjected to a peer review process. The purpose of peer review is to assist the Editor-in-Chief, Editorial Board and Consulting Editors in making editorial decisions and through the editorial communications with the author it may also assist the author in improving the paper. Scientific papers, review papers, short communications are subjected to the review process.

Reviews are anonymous (single-blind procedure), and at least one positive review should be obtained for a positive decision – acceptance of the paper after minor or major revision. In case MAJOR changes are demanded by reviewer(s), the revised version of the paper will be sent again to the reviewer(s) for their FINAL OPINION. Reviewers are not paid for their reviews.

The choice of reviewer(s) is at the discretion of the Editor-in-Chief and members of Editorial Board. The reviewers must be knowledgeable about the subject area of the manuscript; they must not be from the authors' own institution and they should not have recent joint publications with any of the authors. Editors and the Editorial Staff shall take all reasonable measures to ensure that the reviewers remain anonymous to the authors before, during and after the evaluation process.

All of the reviewers of a paper act independently and they are not aware of each other's identities. If the decisions of the two reviewers are not the same (accept/reject), the Editor may assign additional reviewers.

During the review process Editors may require authors to provide additional information (including raw data) if they are necessary for the evaluation of the scholarly merit of the manuscript. These materials shall be kept confidential and must not be used for personal gain.

The Editorial team shall ensure reasonable quality control for the reviews. With respect to reviewers whose reviews are convincingly questioned by authors, special attention will be paid to ensure a high academic standard of objective peer review. When there is any doubt with regard to the objectivity of the reviews or the quality of the review, additional reviewers will be assigned.

Procedures for dealing with unethical behavior

Anyone may inform the Editors and/or Editorial Staff at any time of suspected unethical behavior or any type of misconduct by giving the necessary information/evidence to start an investigation.

Investigation

- The Editor-in-Chief will consult with the Subject Editors on decisions regarding the initiation of an investigation.
- During the investigation, any evidence should be treated as strictly confidential and only made available to those strictly involved in the investigation.
- The accused will always be given the chance to respond to any charges made against them.
- If it is judged at the end of the investigation that misconduct has occurred, then it will be classified as either minor or serious.

Minor misconduct

Minor misconduct will be dealt directly with those involved without involving any other parties, e.g.:

- Communicating to authors/reviewers whenever a minor issue involving misunderstanding or misapplication of academic standards has occurred.
- A warning letter to an author or reviewer regarding fairly minor misconduct.

Major misconduct

The Editor-in-Chief, in consultation with the Subject Editors, and, when appropriate, further consultation with a small group of experts should make any decision regarding the course of action to be taken using the evidence available. The possible outcomes are as follows (these can be used separately or jointly):

- Publication of a formal announcement or editorial describing the misconduct.

- Informing the author's (or reviewer's) head of department or employer of any misconduct by means of a formal letter.
- The formal, announced retraction of publications from the journal in accordance with the Retraction Policy (see below).
- A ban on submissions from an individual for a defined period.
- Referring a case to a professional organization or legal authority for further investigation and action.

When dealing with unethical behavior, the Editorial Staff will rely on the guidelines and recommendations provided by the Committee on Publication Ethics (COPE).

Retraction policy

Legal limitations of the publisher, copyright holder or author(s), infringements of professional ethical codes, such as multiple submissions, bogus claims to authorship, plagiarism, fraudulent use of data or any major misconduct require retraction of an article. Occasionally, a retraction can be used to correct errors in submission or publication. The main reason for withdrawal or retraction is to correct the mistake while preserving the integrity of science; it is not to punish the author.

Standards for dealing with retractions have been developed by a number of library and scholarly bodies, and this practice has been adopted for article retraction by MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES: in the electronic version of the retraction note, a link is made to the original article. In the electronic version of the original article, a link is made to the retraction note where it is clearly stated that the article has been retracted. The original article is retained unchanged; save for a watermark on the PDF indicating on each page that it is “retracted”.

Open access policy

MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES is an Open Access Journal. All articles can be downloaded free of charge and used in accordance with the Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License (CC BY-NC-ND).

The MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES is funded by Matica Srpska and does not charge any fees to authors.

Self-archiving policy

The MATICA SRPSKA JOURNAL FOR NATURAL SCIENCES allows authors to deposit author's post-print (accepted version) and publisher's version/PDF in an institutional repository and non-commercial subject-based repositories (such as arXiv or similar) or to publish it on Author's personal website (including social networking sites, such as ResearchGate, Academia.edu, etc.) and/or departmental website, at any time after publication. Full bibliographic information (authors, article title, journal title, volume, issue, pages) about the original publication must be provided and a link must be made to the article's DOI.

Copyright

Authors retain copyright of the published article and have the right to use the article in the ways permitted to third parties under the Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License (CC BY-NC-ND). Full bibliographic information (authors, article title, journal title, volume, issue, pages) about the original publication must be provided and a link must be made to the article's DOI.

The authors and third parties who wish use the article in a way not covered by the Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License (CC BY-NC-ND) must obtain a written consent of the publisher/copyright holder. This license allows others to download the paper and share it with others as long as they credit the journal, but they cannot change it in any way or use it commercially.

Authors grant to the publisher the right to publish the article, to be cited as its original publisher in case of reuse, and to distribute it in all forms and media.

Disclaimer

The views expressed in the published works do not express the views of the Editors and Editorial Staff. The authors take legal and moral responsibility for the ideas expressed in the articles. Publisher shall have no liability in the event of issuance of any claims for damages. The Publisher will not be held legally responsible should there be any claims for compensation.
