The obligations of the magazine's Editor-in-chief

Editor-in-chief of the Matica Srpska Social Sciences Quarterly makes a final decision regarding the handwritings that are going to be published. While making this decision, the editor-in-chief is lead by the editorial policy considering legal acts which refer to defamation, piracy and plagiarism.

Editor-in-chief can not have any sort of conflict of interests regarding the submitted handwriting. If such conflict does exist, the Editorial Board decides on the election of the referees and the fate of the handwriting. Taking into consideration that the authors' and referees' identities are unknown to the other side, the Editor-in-chief is obliged to ensure this anonymity.

Editor-in-chief is obliged to value the paper on the basis of its content, without racial, sex/gender, religious, ethnic or political prejudices.

Board members are not allowed to use material from the submitted papers for their own research without the author's permission.

The authors' obligations

The authors guarantee that the handwriting represents their own original contribution, that it was not published earlier and is not being considered for publishing elsewhere. Authors guarantee as well that, after publishing in the Matica Srpska Social Sciences Quarterly, that the handwriting will not be published in any other publication (domestic or foreign) without the authorization of the copyright owner.

Authors guarantee that the rights of the third people will not be disturbed nor will the publisher bear the consequences if any requests for amends should appear.

The authors bear full responsibility for the content of the submitted handwritings and the validity of the results and they have to provide permissions for data publishing from all the sides included in the research.

The authors who want to include pictures or parts of the text already published elsewhere are obliged to provide consent of the copyright owners and the proof of the obtained consent while submitting the handwriting. The material that has not been proven in this manner

will be considered author's original work and the publisher will not bear any consequences if the contributions are not done by the authors themselves.

The authors guarantee that the names given as authors are only persons who contributed significantly in the paper writing.

The authors need to respect the ethical standards regarding the scientific-research work. They guarantee that the paper is not a plagiarism. They guarantee that the work does not contain baseless and illegitimate claims and does not disturb someone else's rights.

In case the authors discover a major mistake in their paper after its publishing, they are obliged to notify the editor or the publisher immediately and co-operate with them in order to withdraw the paper, correct it or indicate the mistake by any means. Each article can have a maximum of three authors, with the Co-authorship Statement attached, and the priority of publication will be given to works with one author.

Paper review

All the submitted papers undergo a procedure of anonymous review done by two competent reviewers appointed by the editorship. The aim of the review is to help the editor-in-chief and the editorial board to make a decision whether a certain paper should be accepted or rejected and enhance the writing quality through the communication process with the authors. The reviewers are not acquainted with the authors' names and vice versa. In order for the paper to be published, both reviews need to be positive. Authors who receive conditionally positive reviews are obliged to take into account the reviewers' remarks or to convince the reviewers and the Editorial Board of the correctness of their views with scientific arguments. If they do not want to or are not able to, they can withdraw their work. The deadline for the correction of the paper is 15 days, effective from the day the review is sent to the author. In case of co-authorship, the correspondence will be directed to the first author, the one who is responsible for the communication with other authors.

The choice of the reviewers is a discretion right of the editor and the editorship. The reviewers need to possess relevant knowledge in the field the paper deals with and they can not be the authors that have recently published papers (as co-authors) along with any of the authors of the submitted papers.

If the reviewers consider themselves incompetent for the topic or the field the handwriting deals with, they need to notify the editor-in-chief.

A review has to be objective. The reviewers' judgment has to be clear, with good arguments.

A handwriting sent to a reviewer is considered a confidential document.

The editor-in-chief sends the submitted handwriting and the review form to certain reviewers. The review form contains a set of questions that have to be answered, thus indicating to the reviewers which aspects should be encompassed in order to make a decision on

the fate of the handwriting submitted for the evaluation. In the final section of the review, the reviewers need to give their observations and suggestions for the improvement of the submitted handwriting. The review sheet is sent to the reviewer by the secretary of the editorship of the Matica Srpska Social Sciences Quarterly. In case the refusal of the paper is suggested, the explanation has to be detailed.

During the whole process, the reviewers act independently from one another. The identity of the second reviewer remains unknown to the first one and vice versa.

The editorship is obliged to provide a solid control over the review quality. In case the authors have serious and well based objections on the account of the review, the editorship will reconsider whether the review is objective and whether it satisfies the academic standards. Should any doubt arise regarding the objectiveness or the quality of the review, the editor will seek other reviewers' opinion.

The reviewers are familiar with the fact that the handwritings sent to them for the review are the authors' intellectual property and thus can not be appropriated or shown in public.

It is especially emphasized that the reviewers cannot be from the institution from which the author of the manuscript is or that they have recently published articles and publications with any of the authors of the submitted work (as co-authors).

Plagiarism

Plagiarism, or taking over of someone else's ideas, words or other forms of creative expression and presenting them as one's own, represents a crude violation of scientific ethics. Plagiarism can also include a disturbance of copyrights, which is illegal.

A plagiarism includes the following:

- a 'letter for letter' or almost 'letter for letter' assumption or deliberate paraphrasing (with the aim of covering the plagiarism) of parts of the text by other authors without a clear indication of the source or marking the copied fragments (for instance, by using quotation marks);
- copying of equations, pictures or tables from other people's works without correct citation of the source and/or without the permission of the author or copyright owner.

We warn the authors that each handwriting gets checked for plagiarism or auto plagiarism.

The handwritings with clear indications of plagiarism will be automatically rejected.

If it is ascertained that the paper published in the Matica Srpska Quarterly is a plagiat, the authors will be demanded to write an apologizing note to the authors of the original paper and the further colaboration with the authors of the plagiat will be terminated.

The retraction of the already published papers

The published handwritings will be available as long as possible in the form they were published, without any changes. Sometimes, however, it can occur that the published paper has to be retracted. The main reason for the retraction is the need to correct a mistake with the aim of preserving the scientific integrity, not the desire to punish the authors.

The article has to be retracted in case of disturbing the publisher's, copyright owner's or author's rights; disturbing professional ethical codexes, i.e. submitting the same handwriting to several magazines at the same time, a false claim on the authorship, plagiarism, manipulating data for fraud and so on. In some cases, a paper can be retracted in order to correct subsequently discerned mistakes in the handwriting or in the published paper.

Standards for the resolving of such situations when retraction occurs are defined by libraries and scientific bodies, and the same practice is accepted by the Matica Srpska Quarterly: in the electronic version of the source article (the one that is retracted) a connection is established (HTML link) with the notification on the retraction. The retracted article is kept in the source form, but with the watermark on PDF document, on each page, which indicates that the article is retracted (RETRACTED).

Open access

Matica Srpska Quarterly is available in the open access regime. Articles published in the magazine can be downloaded for free from the magazine's site and used in accordance with the license Creative Commons Attribution-Non-commercial-No Derivatives 3.0 Serbia (<http://creativecommons.org/licenses/by-nc-nd/3.0/rs/>)

Matica Srpska Quarterly does not charge APC (Article Processing Charge).

Auto-archiving

The magazine enables the authors to deposit the accepted, reviewed version of the handwriting, as well as the final, published version in PDF format in an institutional repository and/or non-commercial database. Furthermore, the authors are allowed to publish the paper on personal websites (including the profiles on social networks for scientists, such as ResearchGate, Academia.edu etc) and/or on the website of the institution they are engaged at, in accordance with the clauses of the license Creative Commons Attribution-Non-commercial-No Derivatives 3.0

Serbia (<http://creativecommons.org/licenses/by-nc-nd/3.0/rs/>), any time after publishing it in the magazine. There has to be a mentioning of the publisher, as the copyright owner, and the source of the handwriting, as well as the digital object identifier – DOI of the article published in form of a HTML link.

COPYRIGHTS

Once the handwriting is accepted for publishing, the authors transfer the copyrights to the publisher. In case the handwriting is not accepted for printing in the magazine, authors preserve all rights.

The rights on the handwriting, including additional materials and all the parts, extracts or elements of the handwriting, transferred to the publisher are as follows:

- a right to print trial samples, reprint or special editions of the handwriting;
- a right to translate the handwriting to other languages;
- a right to reproduce the handwriting using photo-mechanic or similar utensils, including but not restricting to photo-copying, and a right to distribute these copies;
- a right to reproduce and distribute the handwriting electronically or optically using all the data carriers or storage media, especially in mechanically readable/digitalized form on data carriers such as hard disc, CD-ROM, DVD, Blu-ray Disc (BD), mini disc, data tapes, and a right to reproduce and distribute the handwriting from the mentioned data conveyors.
- a right to preserve the handwriting in database, including online database, as well as the right to transfer the handwriting in all technical systems and regimes;
- a right to render the handwriting available to public or to closed groups of users on basis of individual requests for use on monitors or other readers (including e-books readers), and in printed form for users on Internet, online services, internal or external networks.

All the documents about the magazine as well as the PDF format of each published issue can be found on the Quarterly's website.
